

1. K-LOVE is the primary radio station that I listen to. Changing its FM status would nearly eliminate my radio listening.
2. K-LOVE's motto is "Positive and Encouraging Radio". It is exactly that -- positive and encouraging. Regular FM radio stations offer negative and raunchy radio that isn't fit to be listened to. I do not want that kind of message being played here in Tucson. As a community, Tucson loves K-LOVE and does not want to see it replaced by other non-family oriented radio stations.
3. K-LOVE offers positive music and a positive message to families. Everyone can listen to K-LOVE without being offended -- everyone from young children to older adults. You cannot say that for other FM radio stations. K-LOVE is truly needed in our community to promote positive families and positive relationships.
